

Name: _____

Today I'm pleased to welcome Prof. Doug Hawkins to class. He'll be talking about some of his statistical consulting experiences in South Africa and elsewhere.

Please think of (at least) one question to ask, and (at least) one interesting thing you heard today, and briefly write them down below. Leave this sheet on the desk by the door at the end of class.

Write down (at least) one question you'd like to ask.

Write down one interesting thing you heard.
