

Name: \_\_\_\_\_

Today I'm pleased to welcome Eric Vance, Director of Laboratory for Interdisciplinary Statistical Analysis at Virginia Tech. He's an advocate for improving consulting by video recording consulting sessions.

I recently recorded a consultation of mine and we're going to look at a few clips with Eric. Write down a comment about each clip.

## Guest: Eric Vance

We also are attending his seminar on the LISA 2020 project, which aims to create a network of 20 new statistical collaboration laboratories in developing countries by 2020.

Write down one question you'd like to ask Eric.

---

---

How has this talk changed your perspective on the importance of statistical consulting?

---

---

---

---

---

---

Bring this sheet to class on Friday; I'll collect it then.

***If you are unable to attend the seminar:*** Before answering the above questions, interview two students who attended about the talk, and summarize what you found out.
