

Network Usage Policy Agreement

Version 3 - July 31, 2009

This form is for using the department ethernet. You don't need to fill anything out to use the wireless internet.

Instructions

This form is for the use of private hardware on the School of Statistics network facilities. Read the full University Acceptable Usage Policy (www.fpd.finop.umn.edu/groups/ppd/documents/policy/Acceptable_Use.cfm), fill out this form, and hand it in to School staff. More detailed instructions can be found in the School Computing Information web page (www.stat.umn.edu/computing/). Contact our support staff if have any questions or need any additional information. As a reminder, all terms of the Account Usage Policy (www.stat.umn.edu/computing/forms/account-form.pdf) will still apply.

Agreement

This form emphasizes some of the most important points, but you are expected to obey the entire University Policy. All computers attached to the University network must:

- be regularly maintained including the application of critical security patches,
- have up-to-date anti-virus virus filtering software, and
- access to private data must be restricted – e.g. by using a strong password and/or encryption.
- No data covered by FERPA or HIPPA can be stored on personal machines.

I have read the Acceptable Usage Policy and agree to abide by the procedures described therein
