

**Case 5 – Ethics**  
**Statistics 8801**  
**Spring Semester 2008**  
**Handed out February 22, to be discussed February 29**

This week is a little different, as each group will discuss a different ethical question. Everyone should read all three cases.

Go to the webpage [www.research.umn.edu/ethics/curriculum/authorship.html](http://www.research.umn.edu/ethics/curriculum/authorship.html)

Group 1 is to discuss case **B2**, group 2 is to discuss case **B3** and Group 3 is to discuss case **B4**. The presentation should (1) give a brief summary of the case, but not a *verbatim* recitation of it; and (2) answer some, or all of the questions posed. You should freely make use of the resources available on this webpage in writing your answers.
